

MOHANNAD AZZI

Software Development Manager | Mobile Engineering Leader

Amman, Jordan | +962 79 870 8751 | mohannad.ezzi@gmail.com | [linkedin.com/in/m-azzi](https://www.linkedin.com/in/m-azzi)

PROFESSIONAL SUMMARY

Software development leader with 20+ years of engineering experience, including more than a decade leading technical and mobile engineering teams across fintech, mobility, and telecom. Currently Manager Software Engineer at EJADA Jordan, directing delivery of virtual banking and government digital-service platforms and driving SDLC-wide tooling initiatives. Track record of building and scaling products end-to-end, improving development processes, and translating business needs into robust, scalable technical solutions. Strong background in mobile architecture, cross-platform development, Agile delivery, and cross-functional collaboration.

CORE COMPETENCIES

- Engineering Team Leadership & Mentoring
- Mobile Architecture & End-to-End Development
- Agile Delivery & Cross-Functional Collaboration
- Fintech & Mobility Platform Development
- Code Quality, Performance Optimization & CI/CD
- Stakeholder Management & Technical Strategy

PROFESSIONAL EXPERIENCE

Manager Software Engineer

Mar 2023 – Present

EJADA Jordan | Amman, Jordan (Hybrid)

- Lead mobile engineering delivery for Nera, a virtual banking application (React Native) covering account creation, money transfers, digital wallet, gold purchasing, loan services, savings (“Goal Getter”), transaction tracking, and multi-currency card management.
- Partner with backend teams to deliver secure, scalable financial solutions across iOS and Android.
- Contribute to Riyadhhi, a mobile platform for the Saudi Ministry of Sport, delivering digital workflows for investment services, visa requests, committee formation, license transfers, and customs clearance.
- Drive AI SDLC, a web and desktop platform (Node, React, Next.js) delivering end-to-end software development life cycle improvements across all roles, with a focus on UI/UX and development, helping engineers complete pending tasks; integrated with Jira, Figma, and GitHub.

Senior Mobile Developer

Jan 2022 – Mar 2023

ArabyAds | Amman, Jordan

- Built and maintained React Native applications, integrating REST APIs and native mobile features.

Senior Software Engineer

May 2020 – Dec 2021

SHIFT Financial Services Ltd | United Kingdom

- Built the SHIFT transfer web application (JSF) enabling agents to process money transfers remotely.
- Developed an Android mobile application allowing clients to transfer funds directly.
- Delivered an agent authentication app (Android & iOS) to monitor and secure login attempts on the transfer platform.

Senior Security Assurance Specialist

Jan 2020 – May 2020

Arab Bank | Amman, Jordan

- Supported security assurance processes for core banking systems.

Team Leader

May 2018 – Jan 2020

Nozzum for Business Solutions | Amman, Jordan

- Led a development team delivering back-end and REST API-based solutions.

Senior Java Developer

Aug 2016 – May 2018

Spectrum Telecom | Amman, Jordan

- Delivered REST API and database-driven solutions for telecom systems.

Senior Java Developer

Nov 2015 – Jun 2016

Creative Brains Solutions | Amman, Jordan

- Developed REST API and database components.

Technical Team Leader

Nov 2009 – Sep 2015

Principle For Advanced Communication Technology | Amman – Abdali, Jordan

- Led a technical team through Java EE development and service design.
- Directed database design and implementation across multiple projects.

Senior Software Developer

Jan 2008 – Nov 2009

Jordan Data Systems (JDS) | Jordan

- Developed an ERP system (.NET) covering Human Resources, Payroll, and PBX calling modules.

Software Developer

Oct 2006 – Jan 2008

Softcon | Jordan

- Built an ERP system (.NET) for fleet management companies, spanning HR, payroll, accounting, operations, and inventory.

EDUCATION

Bachelor of Science (BS), Computer Information Systems

Alzaytoonah Private University | 2002 – 2006 | Grade: 86.1

CERTIFICATIONS

- Individual Effectiveness — FranklinCovey (Issued Jun 2025)
- MCP – SQL Server — Microsoft (Issued Jul 2007)

TECHNICAL SKILLS

React Native, React, Next.js, Node.js, JavaScript, Java, .NET Framework, Firebase, Git, REST APIs, Databases, Back-End Web Development, CSS, Android Development, Jira, Figma, GitHub
